Auto Knives

When Colonial created its first pocketknife in 1926, they knew it would become an industry standard. Today Colonial is proud to manufacture the highest quality in precision cutlery that can only come from nearly a century of knife making experience.

That's why Colonial is able to offer a lifetime warranty on all its products.

Today Colonial continues to push every one of its manufacturing boundaries, through the use of innovative technologies and breakthrough metal research which requires a powerful position along with creative thinking. It's the perfect confluence of art and science – the kind of performance you'll find at Colonial, and the type of “pushing the envelope” that has made Colonial an industry leader.

"THE KNIVES THAT HELP BUILD AMERICA"

Hand Crafted Series

Cocobolo by Colonial

Precision ground blades using 420 Sheffield Cutlery stainless steel. Exotic Cocobolo handles are hand polished to capture the beauty of the wood. The nickel silver bolsters are polished on a jewelers wheel allowing the nickel bolsters luster to come forth. Crafted using the same manufacturing technique used by Colonial in the 1930's, these exquisite cutlery pieces are sure to be cherished for generations to come.

2005 RETAIL CATALOG

Thank you for your inquiry into the Colonial line of knives. Since 1926 Colonial Knife, a division of CCI, Inc., has been a leader in pocket knife manufacturing and we are proud to offer you the best selection of traditional, military and general-purpose knives available today. Each knife is hand inspected by our quality control personnel before it is shipped from our facility to insure your Colonial knife is the best available. That is one of the reasons all of our products, including our import line, come with our famous lifetime warranty against defects in materials and craftsmanship.

Please check out our web site at www.colonialknifecompany.com and click onto the history page for a complete look into our 70 years of knife making experience. Again, thank you for your interest in the Colonial product line. If you have any questions regarding your purchase or warranty, please feel free to contact us, toll free, at (866) 421-6500 (9am to 5pm) Eastern Standard Time.

Steve,

Thank you for another great knife! We're looking forward to many more successful promotions with Colonial. We've been doing business with Colonial since 2002 and the professionalism and integrity of your entire staff ensures our programs run smoothly from start to finish. Our orders have shipped complete and on-time making my job a lot easier to manage. I look forward to doing business with Colonial in the future.

Thanks again,

April 2004

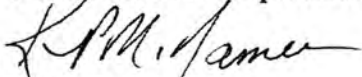

Techni-Tool, Inc. has been a long time customer of Colonial Knife Company and for good reason.

Techni-Tool, Inc. is an international distributor of tools and equipment used in the electronic production industry. We have been in business for over forty-five years and supply these products to some of the largest companies in the world. As such we need to select vendors which meet our high standards who can provide not only quality products but also can deliver the world class service that our customers demand of us.

Colonial Knife Company, for many years, has proven themselves been one of those vendors over and over again. Techni-Tool, Inc. not only relies on Colonial Knife Company to provide manual cutting tools sold under the Colonial Knife brand but also trusts them to be the manufacture of the Techni-Tool brand of cutting tools.

In today's business climate the idea of partnership between a client and a vendor is often lost in finding the lowest price. At Techni-Tool, Inc. we pride ourselves on seeking out those special few vendors who feel that there is more to the sale than just the price. This is how we treat our customers and how we expect to be treated by our vendors. Steve and all the employees of Colonial Knife Company understand what a true partnership involves and are willing to make that commitment to their customer each and every day.

It is an honor to be partnered with Colonial Knife Company.

Dear Steve:

I wanted to let you know how impressed I was during our meeting on April 1st of 2004. Not only were you able to provide me with a lot of information about Colonial Knife and its history, but you also listened to what our needs were, here at Contact East/Jensen Tools. I really appreciate you looking into the specialty knife we were interested in. It is so great to have a supplier who still takes pride in their craft and can deliver high quality products on time, every time! I look forward to taking you up on your custom product design abilities again in the near future.

Best Regards,

Edward Denney

Attn: Rick Stroo

Dear Mr. Stroo,

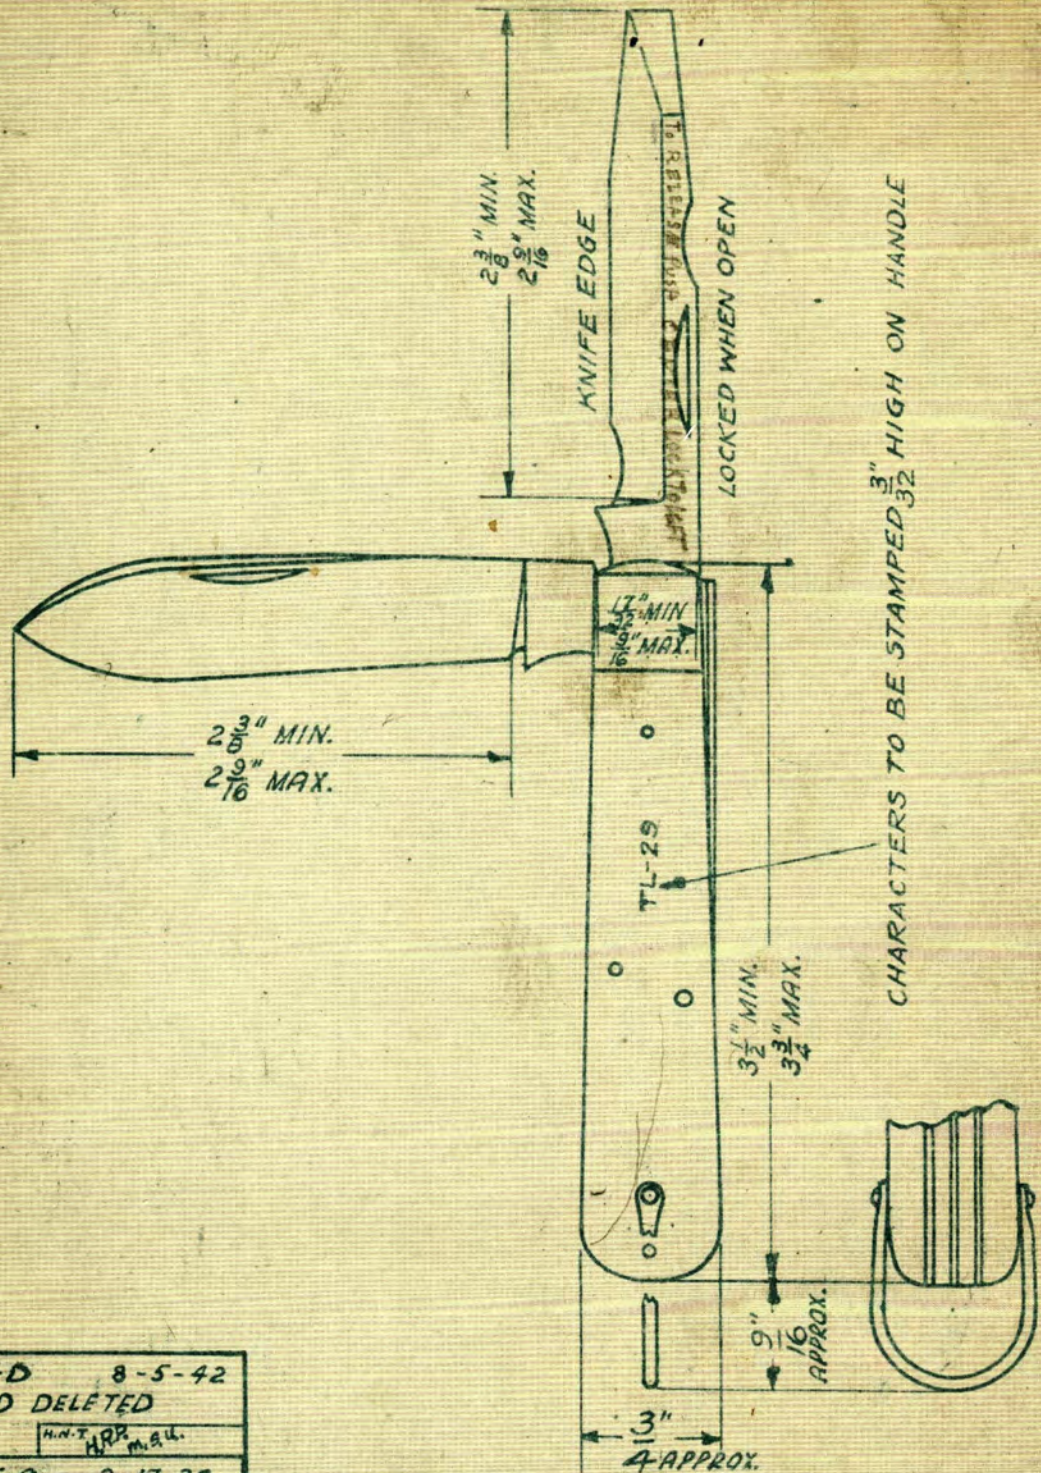

Thank you for your prompt reply to my email concerning the U.S. Navy Mark I Combat Utility Knife I purchased. Enclosed is the knife in question.

Your company's idea to reproduce this knife was great. It's a well designed knife and your reproduction affords us the opportunity to enjoy a bit of history.

Sincerely,

Richard Raschke
