Legal information concerning assisted opening knives

The Switchblade Knife Act of 1958 which is more clearly known as the Federal Switchblade Act, while making illegal the manufacture or sale of switchblades in interstate commerce and banning importation of switchblades, also provides a clear definition of a "switchblade." The 1958 Act defines a "switchblade" as any knife having a blade which opens automatically

(1) by hand pressure applied to a button or other device in the handle of the knife, or

(2) by operation of inertia, gravity, or both.

Because assisted opening knives did not exist in 1958 these knives and how they function were not explicitly described by the original statutory language of the Switchblade Knife Act of 1958. On October 28th 2009 President Obama signed into law legislation amending the Switchblade Knife Act of 1958 to include an exception specifically for assisted opening knives. Assisted opening knives are now classified under Section 1244 Exceptions in the Federal Switchblade Act

(5) a knife that contains a spring, detent, or other mechanism designed to create a bias toward closure of the blade and that requires exertion applied to the blade by hand, wrist or arm to overcome the bias toward closure to assist in opening the knife. This legislation and the newly amended Federal Switchblade Act clarifies once and for all the legality of assisted opening knives.

Federal Switchblade Act

U.S. Code

Chapter 29 – Manufacture, Transportation, or Distribution of Switchblade Knives

(b) The term "switchblade knife" means any knife having a blade which opens automatically -

(2) by operation of inertia, gravity, or both.

Section 1242. Introduction, manufacture for introduction, transportation or distribution in interstate commerce; penalty

Whoever knowingly introduces, or manufactures for introduction, into interstate commerce, or transports or distributes in interstate commerce, any switchblade knife, shall be fined not more than \$2,000 or imprisoned not more than five years, or both.

Section 1243. Manufacture, sale, or possession within specific jurisdictions; penalty

Section 1244. Exceptions

(3) the Armed Forces or any member or employee thereof acting in the performance of his duty;

(4) the possession, and transportation upon his person, of any switchblade knife with a blade three inches or less in length by any individual who has only one arm; or

The Postal Service may require, as a condition of conveying any such knife in the mails, that any person proposing to mail such knife explain in writing to the satisfaction of the Postal Service that the mailing of such knife will not be in violation of this section.
- (h) Any advertising, promotional, or sales matter which solicits or induces the mailing of anything declared nonmailable by this section is likewise nonmailable unless such matter contains wrapping or packaging instructions which are in accord with regulations promulgated by the Postal Service.
- (i)

- (k) For purposes of this section, the term "State" includes a State of the United States, the District of Columbia, and any commonwealth, territory, or possession of the United States.

Warranty Information

TAYLOR BRANDS LLC LIMITED LIFETIME WARRANTY FOR CUTTING TOOLS

This product is warranted to the original consumer purchaser, for as long as he or she owns this product. Coverage ends if you transfer or sell the product to someone else or if the product is modified in any way. The warranty covers defects in materials, manufacture or assembly. If one of our products ever breaks or fails due to material or manufacturing defect we will repair or replace the product.

The warranty does not cover normal wear, damage caused by abuse, misuse, improper handling, loss, accident, alterations, neglect, disassembly or improper sharpening. Cosmetic damage which occurs over time and use, such as scratches on a products finish or coatings on a product rubbing or wearing off are normal and are not covered by the warranty. Our products rarely fail because of a defect and in most cases the failure or breakage is due to "tool abuse". "Tool abuse", is when the product is used for unsuitable non intended purposes. Examples would be using a knife for any other purpose than cutting (pounding, prying, using as a screwdriver, throwing the knife etc). Multi-purpose tools are not intended to replace full-sized tools and are for use only on light or moderately heavy-duty applications. Collapsible batons are not pry bars etc. Always use the proper tools for the proper intended purposes.

Locking systems such as liner locks, safeties, frame locks and lock back mechanisms are added features designed to help keep the blade in the open position when fully extended. These systems are not designed to take pressure or blows to the backside (dull) side of the blade and failure of these systems can happen when not used properly. When a cutting tool/knife is used properly the cutting pressure exerted on the knife blade will always be against the cutting edge of the blade pushing and keeping the knife blade open, when used properly it is impossible for the knife to close when cutting.

Misuse of your product can cause serious injury or even death. Misuse often will result in your product failing and breaking in which cases the Taylor Brands warranty will not apply. Failure to properly maintain your product may cause it's mechanisms to not function properly and could also result in injury to you and/or damage to your product.

INTERNATIONAL CUSTOMERS

Please take your item(s) to your local dealer where the product was purchased, ask that they contact Taylor Brands LLC with regard to your defective item and Taylor Brands LLC will include replacement parts or a replacement item on their next shipment of goods to our authorized distributor in your area. If you are unable to find a dealer or distributor in your area we ask that you send your item in for repair/replacement to our facilities following the normal warranty procedure with the exception that the cost of shipping may be adjusted upon receipt of the item in order to cover return shipping to your out of country location.
